

TL-5100

Traffic Lights

Wiring Connection:

Specifications:

Input Voltage	DC12V
Output Power	18W
Current consumption	When red led indicator on: 150~200mA When green led indicator on: 200~300mA
Environment Temp.	-20°C ~ 60°C
Environment Humidity	40~90%
Material of housing	Metal
Size	356(W)×242(H)×27(D)mm

- High lux wide range LED panel.
- Stylish designing, simple wiring connection.
- Low current consumption, power saving.
